DETAILED ACTION

Receipt and entry of Applicant's Preliminary Amendment dated August 09, 2006 is acknowledged.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or render obvious the claimed combination including means for calculating a first volume of ash from the engine lubricating oil, means for calculating a second volume of ash from the engine fuel, means for calculating a usable volume of the particle filter from a total volume of the filter when new and the previously calculated first and second volumes of ash, and means for calculating a degree of clogging of the particle filter from the total volume of the filter when new and the previously calculated usable volume to trigger a maintenance request if the degree of clogging exceeds a predetermined threshold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and consists of five patents:
